

THE CAPITAL COMPASS

A NEW CHAPTER FOR EARLY CHILDHOOD EDUCATION AT THE FINDLAY YMCA

As construction steadily progresses on the new ELC, the vision behind this transformative project is becoming a reality. Every day, the building evolves into a vibrant, purpose-driven space designed to meet the growing needs of families in our community.

With expanded square footage and reimagined classrooms, the new facility will significantly increase capacity—offering additional infant, toddler, and preschool classrooms tailored to inspire curiosity, creativity, and connection. Among the enhancements is the addition of a brand-new toddler classroom, reflecting both rising demand and our commitment to nurturing children during their most formative years.

More than just a building, the new Early Learning Center is a testament to what happens when a community comes together to champion access, equity, and excellence in early education. Donor support has played a crucial role in bringing this vision to life—and soon, families will walk through the doors into a center built on opportunity, trust, and the promise of brighter futures.

BOARD APPROVED

In May, we were proud to welcome our Board of Directors for a special tour of the new Early Learning Center. Their visit offered an inside look at the progress underway and the thoughtful design behind each space. It was a meaningful opportunity to share how their leadership and support are helping shape the future of early childhood education in our community.
