ADAPTIVE SPORTS: BASKETBALL

ADAPTIVE BASKETBALL

The program's goal is for kids to learn and improve on the fundamental movement skills that work on the ABC's (Agility, Balance & Coordination) along with dribbling, passing, defense, and shooting.

Trained staff will lead players in drills and games designed to challenge and develop gross motor skill all while having fun and making friends.

YMCA Adaptive Sports provide players, regardless of their ability, the opportunity to play sports. The games and activities are geared to the ability level of each player. All the games are played on a wood flooring for easy mobility.

We believe in creating a positive and welcoming environment for players of all ages. By focusing on play, building character, and championing individual challenges, we empower them to grow and develop at their own pace. It's all about providing players the opportunity to enjoy basketball on their own terms.
