GATEWAY FINANCIAL SCHOLARSHIP

To ensure all youth and families have access to programs and services, **Watertown Family YMCA**, supported by **Northern New York Community Foundation**, **United States Army Child & Youth Services** and **United Way of Northern New York**, offers financial assistance to those who are unable to afford membership or program fees.

Assistance is determined based on each applicant's income and expenses.

Applications are available at the YMCA Welcome Center or online. Watertown Family YMCA is committed to protecting the privacy of all applicants and safeguarding their personal information.

A desire to CREATE!

SPOOKTACULAR SCIENCE

STEM to Table means using science, technology, engineering, and math (STEM) to make yummy food! You'll learn how food works, use cool tools, build fun food creations, and practice measuring all while cooking tasty treats you get to eat!

Get ready for creepy, bubbly, and totally tasty experiments! In this hands-on Halloween science workshop, kids will explore edible chemical reactions, solubility, and gooey textures while making spooky slime treats, racing dissolving candy corn, and brewing fizzy witches' potions they can actually drink.

It's messy, delicious, and full of STEM surprises! Perfect for curious minds who love science and snacks!
