PROGRAM FEES

FREE to military families with medical appointments.

CHILDREN'S WAITING ROOM provides up to two hours of care for children in a safe, nurturing environment while parents attend medical appointments. We can help make it easier to ensure your family is healthy and happy during a loved one's military service.

For military parents, it can often be difficult to focus on their own health and well-being when their attention is divided between their care provider appointments and their children.

In addition, parents prefer to leave children outside of the clinical areas allowing them to focus on the information provided by the doctor and reducing exposing healthy children to sick patients.
