**Examples of what to pack their belongings in:**

The cabins have bunk beds with twin size mattresses. The bunks are low the ground and large suitcase and trunks do not fit underneath them. We recommend packing items in Sterlite large 3-drawer containers or a thin suitcase/duffle bag.

The cabins have electricity but do not have bathrooms. We have large bathhouses the kids use with individual shower and bathroom stalls. We recommend a handled shower caddy for all the kids bathroom needs. This type allows the staff to see what the kids have and do not have and what they may have left behind in the shower/sink/bunk.
