FOR SOCIAL RESPONSIBILITY

OUR DISINFECTANTS

The YMCA is currently using the following for disinfecting surfaces:

- **Enviro Bac 2**
 - Enviro Bac 2 is an EPA approved high quality, high dilution, 10% quaternary sanitizer/disinfectant and mildewstat. It is used in dairies, hospitals, hotels, schools, food service industry, produce plants, poultry and meat plant operations.
 - We use this cleaner in our Child Watch and Group Fitness Studios.
 - Disinfects in 10 minutes (spray a light mist on surface and allow to air dry).
- **Oxivir Tb**
 - A disinfectant cleaner based on proprietary hydrogen peroxide technology to deliver fast, effective cleaning performance.
 - We have this cleaner in Health & Wellness for our members to use on our equipment.
 - Disinfects in 60 seconds (either spray, wait 60 seconds, then wipe or wipe with damp cloth and air dry).
- **QT-TB**
 - QT-TB is a ready-to-use, quaternary based disinfectant designed specifically for institutional cleaning.
 - We have this cleaner in Health & Wellness for our members to use on our equipment.
 - Disinfects in 60 seconds (either spray, wait 60 seconds, then wipe or wipe with damp cloth and air dry).
