

THIS IS Y.

SUPPORTING YOUTH EDUCATION AND DEVELOPMENT

Youth who participate in high-quality after school programs can improve school attendance and test scores, as well as increase positive social behaviors. In 2021, our Y provided financial assistance for 201 participants in Y After School care.

By supporting YMCA After School, children are provided a safe and healthy place to learn, grow, and develop foundational skills to succeed in school.

FIND YOUR REASON. FIND YOUR Y.

1 in 5 youth do not have someone to care for them after school, which can predispose them to risky behaviors.
